WELCOME

We are delighted to introduce this collection of games that are both fun and designed to engage your brain. Many are designed to be played with friends or family, and just as many by yourself.

Brain Games are not for younger children, but enjoying them is not restricted to any particular age group. Many adults will love them as much as we have producing the book. Using Walter's quirky and amusing drawings, games are quick to learn and many can be played for hours.

Games include:

- Number games for 1 and 2 players
- Logic games for 1 and 2 players
- Drawing games
- Action games
- Paper engineering games
- Word games

If you want to do a particular type of game, look out for the icons on page 7 as you go through. Or play the 239 Games in order and challenge yourself and your skills!

Walter Joris has been amusing and challenging people for many years – see more about Walter on the last page of the book.
